

## SCOTT BENZER GITGANO

Address: 252-E Tres De-Abril St., Punta Princessa, Daclan

Compound, Cebu City

Contact No.: +63 916-446-0270

E-mail: [Scottbenz03@gmail.com](mailto:Scottbenz03@gmail.com)

---

### SUMMARY

IT student with practical experience in building web interfaces and applications using JavaScript, ReactJS, and Java. Strong collaborative and time-management skills gained from project work and hackathons. Eager to apply technical knowledge and learn in a real-world IT internship or OJT environment.

### PROJECT EXPERIENCE

---

Frontend Developer

GalacticPulse (Hackathon organized by Proweaver, Inc.)

A hackathon challenge which we're challenged to recreate the game galactic pulse. It is an AI friendly hackathon so we're free to use any type of AI software that can help us to recreate this project within 6 hours.

CapstoneConnect v1 (Project for Information Management 2)

Built key front-end features for a collaboration platform that matches users based on skills and project interests. Implemented profile browsing, matching (button interactions on web and swipe on mobile), in-app chat, and real-time notifications. Focused on delivering a smooth, intuitive UI across platforms.

FitTrack (Project for Information Security 1 and Application Development)

Developed front-end features for a fitness tracking platform where users log workout types, goals, and rest times. Focused on the workout-goal and workout-history modules, implementing interfaces for users to record, view, and manage their workout data. Built UI components for CRUD operations, ensuring smooth data handling and an intuitive user experience.
